Subject index

Abdominoscrotal port, establishment by laparoscopic orchidopexy (point of technique) 793
Adenocarcinoma, prostatic, prognostic value of c-*erb*B-2 and epidermal growth factor in stage A1 (T1a) adenocarcinoma 214
Adenylate/guanylate cyclase, activity in penis and aorta of diabetic rat 106
α_1-adrenoceptor subtypes in human prostate 585
  pharmacological characterization 572
Air insufflation during flexible cystoscopy, comparison with water irrigation 311
Alfuzosin, long-term treatment of benign prostatic hyperplasia 579
Amplatz sheath, splitting, to facilitate percutaneous stone extraction (point of technique) 375
Amyloidosis, localized, urinary bladder (correspondence) 395
Analgesia
  after renal surgery, patient-controlled intermuscular bupivacaine infusion 155
  extracorporeal shock wave lithotripsy 302
Angiogenesis quantification, as independent predictor of prognosis in invasive bladder carcinomas 762
Angiomyolipomas
  inferior vena cava, surgical management (case report) 383
  renal tuberous sclerosis patients 151
Antiphospholipid syndrome, primary, renal vein thrombosis and (case report) 807
Appendix testis, metachronous torsion (correspondence) 394
Autoaugmentation gastrocystoplasty, early clinical results 460

Bacteriuria
  Group A streptococci 444
  in patients with continent ileal reservoir for urinary diversion 177
Balanitis xerotica obliterans *see* Lichen sclerosus et atrophicus
Banana stem extract, influence on urinary risk factors for stones in normal and hyperoxaluric rats 23
Biopsy
  prostate
    in detection of prostate cancer 210
    multiple core biopsy mapping of total prostatectomy specimens 617
    transrectal, valsalva retinopathy after (case report) 391
  testis, Biopty gun 366
Bladder
  amyloidosis, localized (correspondence) 395
  augmentation
    autoaugmentation gastrocystoplasty: early clinical results 460
    evaluation of childhood cystoplasty with reference to vesico-ureteric reflux and urinary infection 465
  cancer/carcinoma
    angiogenesis, quantification of, as independent prognostic marker in transitional cell 762
    bladder conservation in selective T_1G_3 and muscle-involving T_2-T_{3a} carcinoma using combination of surgery and iridium-192 implantation 322
    metastasis involving testis (case report) 380
    primary squamous cell carcinoma and malakoplakia arising in long-standing chronic cystitis (case report) 801
    squamous cell, following radiotherapy for transitional cell carcinoma 131
    superficial, response of marker tumour to single intravesical instillation of epirubicin 195
    transitional cell, *c-jun* oncogene expression 757
    transitional cell, clitoral metastasis (case report) 524
    transitional cell, positron emission tomography with L-methyl-^{11}C-methionine in monitoring therapy response in muscle-invasive carcinoma 767
    transitional cell, quantification of angiogenesis as independent prognostic marker 762
    transitional cell, recurrence following cessation of long-term treatment with intravesical thiotepa 44
    treatment delays and survival rates (correspondence) 263
  excitatory neurotransmission 736
    effects of suramin 736
  exstrophy, urinary continence after reconstruction (correspondence) 532, 533
  extent of blood transfusion and cancer-related mortality after cystectomy and urinary diversion 779
  hypersensitive, treatment by destruction of vesicoureteric plexus 40
  infarction, following coronary surgery (case report) 256
  neck
    effect of vaginal ultrasound probe on anatomy and mobility 749
    modified needle suspension procedure for stress incontinence 188
  neuropathic
    augmentation cystoplasty 465
    autoaugmentation gastrocystoplasty 460
    poor compliance, assessment of contribution of visco-elastic factors 744
  outflow obstruction
    benign prostatic hyperplasia, doxazosin treatment 50
    benign prostatic hyperplasia, pathophysiological changes in bladder (correspondence) 133
    effect of steroid abuse in athletes 476
    neurofibromatous (case report) 386
  reconstruction with pedicled rectus and gracilis muscle flaps 775
  spontaneous rupture resulting from giant vesical calculus (case report) 385
  stones *see* Stones, bladder
Blood coagulation, procoagulant properties of benign and malignant prostatic tissue 204
Blood transfusion, and cancer-related mortality after cystectomy and urinary diversion for bladder cancer 779

  epidermoid
    kidney (case report) 125
    testis, ultrasound diagnosis and surgical enucleation (case report) 518

Dartos muscle, leiomyosarcoma (case report) 129
Day case surgery
  genito-scrotal, with sedation reversal, survey of patient attitudes and morbidity 658
  and urology (review) 2
Desmopressin, in treatment of nocturia and enuresis in patients with multiple sclerosis 733
Diabetes mellitus, impotence, role of adenylate/guanylate cyclase 106
Diclofenac, extracorporeal shock wave lithotripsy analgesia 302
Diethylstilboestrol, neoadjuvant, and radical prostatectomy in treament of locally advanced prostate cancer 630
DNA flow cytometry, in prediction of post-treatment spermatogenesis in patients with testicular cancer 359
Doppler ultrasound *see under* Ultrasound
Doxazosin, in treatment of benign prostatic bladder outlet obstruction, three month double-blind study 50
Dysuria, definition (correspondence) 533, 534

Ejaculation, retrograde, ectopic ureterocele and (case report) 251
Ejaculatory duct obstruction, infertile patient, successful treatment (case report) 527
Electrode, percutaneous implantable, pelvic floor stimulation 191
Endometriosis, luteinizing-hormone releasing hormone analogue treatment, precipitation of acute renal failure (case report) 672
Epidermal cysts, presenting as intrascrotal tumour (case report) 528
Epidermal growth factor receptor, prognostic value in stage A1 (T1a) prostatic adenocarcinoma 214
Epidermoid cysts
  kidney (case report) 125
  testis, ultrasound diagnosis and surgical enucleation (case report) 518
Epididymitis, ectopic vasal insertion into posterior urethra (case report) 523
Epirubicin, response of tumour marker to single instillation in superficial bladder cancer 195
Erectile dysfunction
  diabetic rats, role of adenylate and guanylate cyclase 106
  intracavernous auto-injection programme, reasons for drop-out 99
  vacuum constriction devices, acceptance and effectiveness 102
Ethyl chloride spray in treatment of priapism (case report) 677
Etoposide, treatment of relapsed non-seminomatous germ cell tumours, long-term outcome 225
Evoked potentials, clinical application of dorsal penile nerve cerebral-evoked response recording in investigation of impotence 231
Extracorporeal shock wave lithotripsy (ESWL)
  arterial oxygen saturation in 302
  choice of analgesia 302
  long-term results (review) 397
  pain in 302
  painless scrotal bruising following treatment of renal calculus (case report) 675
Extraperitoneal laparoscopic pelvic lymph node dissection using Gaur balloon technique (case report) 128

Fibrin, subureteric injection, in treatment of vesico-ureteric reflux in dogs 710
Fine needle aspiration, digitally-guided, detection of prostate cancer 210

Fistula, urethrocutaneous, buccal mucosa patch graft (case report) 679
Foreign bodies
retrograde renal, fragment of balloon-catheter as (case report) 379
vagina, giant calculus surrounding (case report) 673
Frequency-volume charts, pattern in healthy female population (correspondence) 264, 265
Fumagillin, synthetic analogue, antitumour effect on murine renal carcinoma 416

Gastrocystoplasty
autoaugmentation, early clinical results 460
urodynamic and clinical follow-up of 28 children 469
Gaur balloon technique, extraperitoneal laparoscopic pelvic lymph node dissection (case report) 128
Germ cell tumours, non-seminomatous, relapse after chemotherapy, long-term outcome 225
Glans penis
cutaneous horn (case report) 257
Kaposi's sarcoma, appearance on magnetic resonance imaging (case report) 521
Glycoconjugates, metastatic prostate carcinoma 80
Gracilis muscle flap, partial bladder reconstruction 775
Granuloma, hair, prostate (case report) 260
Guanylate cyclase *see* Adenylate/guanylate cyclase

Haematoma, retroperitoneal, causing acute renal failure (case report) 119
Haematuria
asymptomatic microscopic, evaluation of 723
nutcracker syndrome 139, 144
repeat testing, and underlying urological pathology 730
Haematuria clinics, bladder cancer management (correspondence) 263
Hair granuloma, prostate (case report) 260
Hernias, inguinal *see* Inguinal hernias
Hormonal treatment, locally advanced prostatic carcinoma 637
Human immunodeficiency virus (HIV), lymphocyte subsets in renal allograft recipient infected with HIV 283
Hydroceles, idiopathic, biochemical analysis of tunica vaginalis fluid 511
Hydronephrosis
pre-natally diagnosed, radionuclide assessment 31
renographic drainage patterns and renal morphology in animal model 26
Hyperoxaluria, influence of banana stem extract on urinary risk factors for stones 23
Hypertrichosis lanuginosa acquisita, renal cell carcinoma of kidney (case report) 678
Hypospadias, penoscrotal, new technique for one-stage correction (point of technique) 667

Immune response, renal cell carcinoma, effect of nephrectomy 15
Immune-surveillance, and expression of class I and class II MHC determinants in human prostatic carcinoma cells 609
Impotence
caused by venous-sinusoidal incompetence, combined surgical and radiological penile vein occlusion 492
corpus cavernosal relaxation and 485
inflatable prosthesis, unusual cause of failure (case report) 120
investigation, dorsal penile nerve cerebral-evoked response recording 231
organic or mixed aetiology, treatment with vacuum constriction device 102
see also Erectile dysfunction
Incontinence
caused by giant vaginolith around an unusual foreign body (case report) 673
electrical pelvic floor stimulation by percutaneous implantable electrode 191
stress
comparison of modified needle suspension and vagina/obturator shelf procedures 188
intra-urethral ultrasound 315
women with multiple sclerosis, long-term follow-up of transvaginal urethral closure and suprapubic cystostomy 319
Infertility
lepromatous leprosy and 221
varicocele and ejaculatory duct obstruction, successful treatment (case report) 527
Inguinal hernias
with cryptorchidism, laparoscopic management (point of technique) 245
iatrogenic ascent of testis following repair in children (correspondence) 531
Interferon, adjunctive treatment for non-metastatic renal cell carcinoma 11
Iridium-192 implantation, selective T_1G_3 and muscle-invasive T_2-T_{3a} bladder carcinoma 322

Kaposi's sarcoma
glans penis, appearance on magnetic resonance imaging (case report) 520
purplish penile papule (case report) 517
Ketorolac, intramuscular, in treatment of renal colic, comparison with pethidine 690
Kidney
angiomyolipomas, tuberous sclerosis patients 151
cancer/carcinoma
collecting duct (case report) 127
long-term assessment of renal function following nephrectomy for stage 1 carcinoma 279
recurrent venous thrombosis and (case report) 669

cysts, retroperitoneal endoscopic excision (case report) 674
disease, tuberous sclerosis and, population study 151
epidermoid cyst (case report) 125
failure
acute, caused by retroperitoneal haematoma (case report) 119
acute, precipitated by luteinizing-hormone releasing hormone analogue for treatment of endometriosis (case report) 672
management in advanced prostatic cancer 642
fetal, mild dilatation, follow-up study 236
foreign body, retrograde, fragment of balloon-catheter (case report) 379
function
after nephrectomy for stage 1 renal carcinoma, long-term assessment 279
effect of various indwelling JJ stents on parenchymal thickness in pig 440
leiomyoma (case report) 525
morphology, chronic hydronephrosis 26
stones *see* Stones, kidney
surgery
bupivacaine post-operative pain relief 155
nephron-sparing, incidental renal cell carcinoma 431
parenchyma-sparing, treatment of renal cell carcinoma 422
see also Nephrectomy
transplantation, lymphocyte subsets in recipient infected with HIV 283
transplants, calculus formation, risk factors 147
trauma, management of blunt trauma in children 370

Laparoscopy
extraperitoneal pelvic lymph node dissection using Gaur balloon technique (case report) 128

laparoscopic orchidopexy for establishing abdominoscrotal port (point of technique) 793
laparoscopic urological surgery: 1994 (review) 267
management of cryptorchidism and associated inguinal hernia (point of technique) 245
ureterolithotomy 170
varicocelectomy 112
Lasers
lithotripsy
intracorporeal, with Swiss lithoclast 699
morphological change in urothelium 685
in treatment of ureteric stones 694
role in urology (correspondence) 394
Leiomyoma, renal (case report) 525
Leiomyosarcoma, dartos muscle (case report) 129
Leprosy, lepromatous, androgenic status 221
Lichen sclerosus et atrophicus, recurrent, in urethroplasties from multiple skin grafts (case report) 802
Lithotripsy
extracorporeal shock wave *see* Extracorporeal shock wave lithotripsy
first record, Byzantine era 405
morphological change in urothelium after electrohydraulic versus pulsed dye laser lithotripsy 685
in treatment of ureteric stones, comparison of laser and pneumatic lithotripsy 694
Luteinizing-hormone releasing hormone analogue for treatment of endometriosis, precipitation of acute renal failure (case report) 672
Lymphocyte subsets, renal allograft recipient infected with HIV 283

Magnetic resonance imaging, estimation of prostatic volume, comparison with transrectal ultrasound 596
Major histocompatibility complex (MHC) determinants, hyperplastic and malignant human prostatic epithelium 609
Malakoplakia
and carcinoma of prostate (correspondence) 263
and primary squamous cell carcinoma, arising concurrently in long-standing chronic cystitis (case report) 801
severe haemorrhagic cystitis and (case report) 797
Masson's tumour, penis (case report) 261
Megaureter repair, modified extravesical technique 715
Mercapto-acetyltriglycine (MAG 3) renography and indirect radionuclide cystography in posterior urethral valves 785
Mesothelioma, malignant, tunica vaginalis testis (case report) 389
biphasic variety (case report) 381
L-methyl-^{11}C-methionine as tracer for positron emission tomography, use in monitoring of therapy response in muscle-invasive transitional cell carcinoma of bladder 767
Mitrofanoff principle, continent urinary diversion 454
expansion of technique 447
Multiple sclerosis
nocturia and enuresis, desmopressin treatment 733
urinary incontinence in women, long-term follow-up of transvaginal urethral closure and suprapubic cystostomy 319

N-acetylcysteine, as therapy for calcium oxalate urolithiasis 288
Necrotizing fasciitis of scrotum—2 cases and review of literature (case report) 387
Nephrectomy
changing indications, 1960–1990 · 274
effect on immune response in patients with renal cell carcinoma 15
partial, renal cell carcinoma 422, 431
stage 1 renal carcinoma, long-term assessment of renal function following 279
Nephrolithotomy
bleeding, Malecot tamponade catheter (point of technique) 247
relook percutaneous, isolated duodenal injury during (case report) 382
Nephrostomy, effect on ureteric stricture formation after ureteric instrumentation of nephrostomy left on free drainage 165
Neurofibroma, causing outflow obstruction (case report) 386
Nutcracker syndrome 144
diagnosis and treatment, new methods 139

Oncogenes, *c-jun* oncogene expression in transitional cell carcinoma of urinary bladder 757
Orchidopexy, laparoscopic, for establishing abdominoscrotal port (point of technique) 793

Pelvi-ureteric junction obstruction, endo-balloon rupture and stenting (correspondence) 532
Pelvic floor, electrical stimulation by percutaneous implantable electrode 191
Pelvis, extraperitoneal laparoscopic lymph node dissection using Gaur balloon technique (case report) 128
Penile vein occlusion, combined surgical and radiological, management of impotence caused by venous-sinusoidal incompetence 492
Penis
cancer/carcinoma
quality of life following treatment 652
radiotherapy 646
curvature, plication procedure
congenital and acquired curvature 501
in Peyronie's disease and congenital curvature, long-term results 497
cutaneous horn (case report) 257
dorsal nerves, clinical application of cerebral-evoked response recording in investigation of impotence 231
embolization of draining veins, formation of corpora cavernosa-spongiosum shunt following (case report) 253
inflatable prosthesis, unusual cause of failure (case report) 120
injury caused by animal (case report) 121
Kaposi's sarcoma
glans penis (case report) 521
purplish papule (case report) 517
Masson's tumour (case report) 261
suspensory ligament repair, transpubic approach (point of technique) 516
Pethidine, intramuscular, in treatment of renal colic, comparison with ketorolac 690
Peyronie's disease, tunica plication, long-term results 497
Positron emission tomography, with L-methyl-^{11}C-methionine, in monitoring of therapy response in muscle-invasive transitional cell carcinoma of bladder 767
Potency-sparing radical surgery (correspondence) 395
Praziquantel treatment of *Schistosoma haematobium* infection, ultrasonography of ureter abnormalities before and after 703
^{3}H-prazosin binding, human prostate 572
Priapism, treatment with ethyl chloride spray after failed intracavernous injection with adrenaline (case report) 677
Prostate
α_1-adrenoceptor subtypes 585
pharmacological characterization 577
benign hyperplasia
doxazosin treatment, three month double-blind study 50
evaluation, update and decisions on prostatectomy 566
long-term treatment with alfuzosin 579

pathophysiological changes in obstructed bladder (correspondence) 133
symptoms, assessment and prevalence in community 551
symptoms in Canadian men 50 years of age and over: prevalence and relationships 542
total versus minimal transurethral resection: 10-year follow-up study 333
benign hypertrophy, evaluation of patients on surgery waiting list 57
biopsy
in detection of prostate cancer 210
multiple core biopsy mapping of total prostatectomy specimens: localization and prediction of tumour volume and grade 617
transrectal, valsalva retinopathy after (case report) 391
cancer/carcinoma
adenocarcinoma, prognostic value of c-*erb*B-2 and epidermal growth factor receptor in stage A1 (T1a) adenocarcinoma 214
comparison of perineal and retropubic radical prostatectomy for T1, T2 tumours 626
detection, comparison between digitally-guided fine needle aspiration and ultrasound-guided transperineal core needle biopsy 210
detection of extracapsular extension prior to radical prostatectomy 72
diagnosis, value of colour Doppler flow 590
expression of MHC determinants in human prostatic carcinoma cells 609
hormone-resistant, quality of life after palliative radiotherapy 345
locally advanced, conservative management with symptomatic treatment and delayed hormonal manipulation 637
locally advanced, experience with neoadjuvant diethylstilboestrol and radical prostatectomy 630
malakoplakia and (correspondence) 263
management of bilateral ureteric obstruction and renal failure in advanced cancer 642
metastatic, altered saccharide sequences 80
multiple core biopsy mapping of total prostatectomy specimens, prognostic information from 617
procoagulant properties of benign and malignant tissue 204
screening, Bristol pilot study: 3-year follow-up 556
screening, GP based study 64
screening, prostate specific antigen in 337
colour Doppler flow, diagnostic value in peripheral zone 590
diseases, comparison of specificity of American Urological Association's Symptom Index for benign hyperplasia and for urethral obstruction not due to BHP and detrusor hyperreflexia without outlet obstruction 200
effect of anabolic steroid abuse 476
hair granuloma (case report) 260
modulated expression of human leucocyte antigen class I and class II and hyperplastic and malignant epithelium 609
nodular hyperplasia in peripheral zone (case report) 520
obstruction
large calibre, self-expanding and self-retaining temporary intraprostatic coil 47
use of Urolume (correspondence) 393
rhabdomyosarcoma, evaluation of transrectal ultrasound 341
transurethral resection
deaths and complications in 1400 men in Northern Region of England 559
early catheter removal 61
evaluation of waiting list patients 57
sexual dysfunction following, written consent about 479
total versus minimal resection: 10-year follow-up study 333
ultrasound evaluation in children 601
volume estimation, comparison of transrectal ultrasound and magnetic resonance imaging 596
Prostate specific antigen (PSA), prostate carcinoma screening 64, 337
Prostatectomy
indications in benign prostatic hyperplasia 566
radical
comparison of perineal and retropubic approaches for T1, T2 cancer 626
multiple core biopsy mapping of specimens, prognostic information from 617
and neoadjuvant diethylstilboestrol in treament of locally advanced prostate cancer 630
radical sequelae 352
transurethral *see* Prostate, transurethral resection
Prostatitis, chronic (review) 537
Pudendal blockage, effect on urethra stress relaxation in healthy women 86

Quality of life
after palliative radiotherapy for hormone-resistant prostate cancer 345
after penile cancer treatment, follow-up study 652
Radionuclide assessment of pre-natally diagnosed hydronephrosis 31
Radionuclide cystography, indirect, with MAG 3 renography, posterior urethral valves 785
Radiotherapy
carcinoma of penis 646
interstitial, selective T_1G_3 and muscle-invasive T_2-T_{3a} bladder carcinoma 322
palliative, hormone-resistant prostate cancer, quality of life after 345
squamous cell carcinoma of bladder following (case report) 131
Rectus muscle flap, partial bladder reconstruction 775
Renal cell carcinoma
antitumour effect of synthetic analogue of fumagillin 416
hypertrichosis lanuginosa acquisita and (case report) 678
immunological parameters in peripheral blood before and after nephrectomy 15
interferon as adjunctive therapy 1
prognostic factors 160
soft tissue metastasis (case report) 799
surgical treatment
nephron-sparing 431
parenchyma-sparing 422
Renal colic treatment, comparison of intramuscular ketorolac and pethidine 690
Renal pelvic pressure, effects of various indwelling JJ stents 440
Renal vein thrombosis caused by primary antiphospholipid syndrome (case report) 807
Renal *see also* Kidney
Renography, diuretic, patterns in chronic hydronephrosis 26
Retroperitoneal haematoma, causing acute renal failure (case report) 119
Rhabdomyosarcoma, prostate, evaluation of transrectal ultrasound 341

Sarcoma, Kaposi's *see* Kaposi's sarcoma
Schistosoma haematobium infection, ultrasonography of ureteric abnormalities before and after praziquantel treatment 703
Screening, prostate carcinoma *see under* Prostate, cancer/carcinoma
Scrotum
accessory (case report) 676
bruising, following extracorporeal shock wave lithotripsy for renal calculus (case report) 675
epidermal cyst presenting as intrascrotal tumour (case report) 528
idiopathic necrosis (case report) 259
necrotizing fasciitis (case report) 387
scintigraphy, bilateral adolescent testicular torsion (case report) 804
Sedation in walk-in, walk-out day case genito-scrotal surgery 658

Seminal emission following cold stimulation, complication of chronic stage of cord infarction (case report) 808
Sexual function, effect of transurethral prostatectomy, written consent about 479
Smoking and ureothelial cancer 753
Spermatic cord, solitary fibrous tumour (case report) 798
Spermatogenesis following treatment for testicular cancer, pre-treatment DNA ploidy of sperm cells as predictive parameter 359
Spinal cord infarction, seminal emission following cold stimulation (case report) 808
Splenogonadal fusion (case report) 250
Stents
  double pigtail, calcification (case report) 810
  JJ
    acute and chronic effects on upper urinary tract motility and calculus transit 434
    indwelling, effects on renal pelvic pressure and renal parenchymal thickness in pig 440
